Mr. Barry

Good Morning! I'm a program analyst for Pre-Grant Publication. This application has been exported to our publisher for pre-grant publication, but the publisher has queried it for missing page 11 & 14 of the file wrapper. PALM indicates that the file has been charged to you. I was wondering if you'd be so kind as to check to see if these pages are present in the file wrapper. If so, I'd be happy to stop by and make a copy, or you could fax it to me at my right fax number, 703-746-8126.

Thanks so much!
